

# Brick Slips and Masonry Cutting

Whether it is bespoke hand cutting or Europe's most advanced auto-slip cutting machines we can manufacture virtually any masonry slip requirements. Our ability to select the most appropriate fabrication method for your project means that we meet high tolerances, any volume requirements and tight deadlines in the most cost effective way.

As the UK's largest manufacturer of slip products, Ibstock-Kevington will be able to meet virtually any requirement.

Advanced auto-slip cutting machines

## Manufactured Slips

A range of purpose made slips are available in popular brick colours and textures. The face size is 215mm x 65mm and is 22mm thick.

Manufactured slips offer excellent value and availability.

Ravenhead Red Smooth 3501

Hearted Red Rustic 3516

Bracken Brown Rustic 3505

Oldcott Rustic 3532

Roughdales Red Multi Rustic 3579

Trafford Multi Rustic 3576

Ravenhead Red Rustic 3502

Calderstone Gold 3597

## Cut Slips

Most bricks from the Ibstock range can be cut into slips. The recommended thickness will vary according to brick type and the needs of the project. In addition to the standard brick format, Fireborn, Linear and Elementix Rainscreen are also available.

Cut slips due to their flat backs and dimensional accuracy are ideal for adhesive bonding.

## Casting Slips

Slips for precast concrete generally require a 'keyed back' to ensure the slips are embedded into the base mix prior to setting.

We manufacture extruded and stock bricks as well as the large format Fireborn units with specially designed keyways suitable for casting

## Masonry Cutting Service, Coursing Bricks and Gable Cuts

We can call upon a wide range of specialist cutting equipment at our factories across the country.

This means that we can precisely cut all types of masonry and stone quickly and cost effectively and therefore removing the necessity for on-site cutting with the associated health and safety and quality implications. This is ideal for making coursing bricks and blocks and for gable pitches.

# BrickTile

These are purpose made tiles to give a quick and professional solution for fireplaces, walls in kitchens, bathrooms, porches, conservatories or anywhere you want a feature wall. Whether indoor or outdoor, use your imagination to create finishes that suit your home.

The range also includes half and corner tiles for a perfect finish.
